- Experience with HTML & CSS
- Experience with Java & Kotlin
- Experience with Linux
- Experience Adobe Creative Suite
- Photoshop CC and Illustrator CC
- Excellent written and oral communication
- Experience with Microsoft Office Suite
- Experience with Customer Service
- Fast learner & Troubleshooter

Research

Advanced Programming: Multi-Threaded & Multi-Server MD5 Hash Password Cracker

Created and completed at UCSC, Advanced Programming with David Harrison

Independent Research: Experimental Play Project Group

Troll Quest: Prototyped an insult arcade-like game to be refined into an official game to be released by Pixeljam. The prototype uses Garden Path sentencings logic that I developed.

Lens Studio: Created AR assets to be mapped to real world geography for SnapChat.

Virtual Reality: Currently coding object mapping software for 3d objects in filmed spaces.

Contact: Richard Grillotti; rich@pixeljam.com; (541) 510-4941

Work Experience

Graphic Designer: EverSmile, Inc.

Creating designs for various products on the EverSmile product line using Adobe Photoshop and Illustrator.

Contact: Joshua Wallace; joshua@eversmilewhite.com; (949) 466-8442

Student Desktop Technician: UC Santa Cruz ITS Support Center

Troubleshooted and directed technical issues that were called in or walked in to the front desk of the ITS Support Center. Facilitated first tier support for the ITS organization. Resolved tickets within the ticketing queue for multiple technical and non-technical issues across campus.

Contact: Justin Williams; justinraphaelwilliams@gmail.com; (706) 254-6365

Draftsman: Carnes & Associates

Did cartography for land surveys, producing topographic and boundary maps in AutoCAD.

Contact: Gary Carnes; gary@carnesandassociates.net; (408) 847-2013

College Advisor: UC Berkeley-SCEC Cal SOAP

Worked autonomously for an outreach branch, writing grants, planned field trips, and gave workshops and trainings to create college-going cultures at several K-12 schools.

Contact: Teresa Ramirez; tramirez@berkeley.edu; (707) 648-1255

Volunteer Developer: Realtime App

Developed in Android Studio for Novateur Inc. for their Android App for a short time.

Contact: Vernon Coleman; realtime@novateurinc.com; (864) 603-9241
